OBJECTIVE

Full Stack Developer experienced in building scalable hiring and assessment platforms. Strong hands-on with API integration, front-end and back-end development, Judge0 integration and cloud deployments. Seeking a software engineering role to contribute to full-stack projects and backend API systems.

TECHNICAL SKILLS

Frontend	React.js, Tailwind CSS, Material UI, shadcn/ui , HTML5, CSS3
Backend	Spring Boot, Node.js, Express.js, REST APIs, JPA/Hibernate
Databases	PostgreSQL, MongoDB
Cloud / DevOps	AWS EC2, CI/CD , Docker (basic), Bitbucket , Git
Developer Tools	VS Code, STS (Spring Tool Suite), Postman, FileZilla, WinSCP, PuTTY
Compiler / Execution	Judge0 API (real-time code execution)
Verification APIs	PAN API, Aadhaar API, UAN API
System	Linux CLI, Nginx , systemctl, SSH, log debugging
Languages	JavaScript, Java SE

EXPERIENCE

Aiprus Software Private Limited

Full Stack Developer (React + Spring Boot)

(6+ Months Experience)

June 2024 – Dec 2024

Gurgaon, India

- Built a scalable hiring assessment platform using **React.js, Spring Boot, PostgreSQL, Judge0, Bitbucket, Swagger, AWS**.
- Managed PR workflow: branch creation, pull requests, reviewer assignment, code reviews, merging, and resolving conflicts.
- Developed complete hiring workflow: job posting → candidate apply → identity verification → test-link generation → exam attempt → automated scoring → selection/rejection emails.
- Implemented Test Builder supporting MCQ, True/False, Multiple Choice, Descriptive and Coding questions with question-bank management.
- Integrated **Judge0 API** for real-time code execution and result capture across languages (Java, JavaScript, Python, C).
- Built interactive UI components and dashboards using **React.js**; optimized state management and API interactions.
- Developed backend REST services using **Spring Boot** and **JPA/Hibernate** for authentication, test management, scoring and reporting.
- Implemented secure authentication: JWT, RBAC (User/Admin) and Two-Factor Authentication (OTP).
- Integrated external verification APIs: **PAN, Aadhaar, UAN**.
- Documented APIs using **Swagger (OpenAPI)** for frontend/backend collaboration.
- Automated deployments using **CI/CD** pipelines; performed server deployments on **AWS EC2** (Ubuntu) with Nginx and Linux services.
- Used **FileZilla / WinSCP** for SFTP transfers during deployments and hotfix releases.

Maestros Infotech

Frontend Developer (Intern)

Apr 2025 – May 2025

Bhopal, India

- Short internship (2 months): worked as a frontend developer building responsive UI components using **React.js**.

- Designed and implemented reusable UI modules with **Tailwind CSS**, ensuring responsive behavior across devices.
- Used **Material UI**, **shadcn/ui**, and **Ulverse** to create consistent and attractive interfaces.
- Implemented interactive components and optimized rendering for improved UX and performance.

PROJECTS

Skills Assessment Platform (Aiprus)

Developed a full recruitment assessment product for employers: job posting, candidate application flow, identity verification, dynamic Test Builder, Judge0-based coding evaluations, automated scoring and recruiter dashboards. Implemented API-first architecture, Swagger docs and CI/CD deployment.
Tech: **React.js**, **Spring Boot**, **PostgreSQL**, **Judge0**, **Swagger**, **AWS**.

Food Ordering Website

Built a responsive food-ordering frontend featuring category filters, product listing, cart management, search, authentication flows and animated UI interactions. Focused on component reusability, optimized client-side state management and smooth checkout UX.
Live Demo: [View Website](#)
Tech: **React.js**, **Tailwind CSS**, **Material UI**, **shadcn/ui**.

URL Shortener

Built a URL-shortening tool supporting short-code generation, redirect handling and basic analytics. Implemented validation, short-code uniqueness and deployed the service for public access.
Live Demo: [View Website](#)
Tech: **Node.js**, **Express.js**, **MongoDB**.

CERTIFICATIONS

- React.js: Beginner to Advanced — Udemy (React hooks, state management, components)
- HackerRank JavaScript (Basic)
- Backend & REST APIs — Self Learning (Node.js, Express.js, Spring Boot, Postman)

EDUCATION

B.Tech (Computer Science and Engineering) , Sagar Institute of Research and Technology, Bhopal CGPA: 8.01	2020–2024
12th (Science) , Kanhai Lal Sahu College, Nawada Percentage: 75.4%	2018–2020
10th , R K High School, Siur Nawada Percentage: 67%	2017–2018
